A fun mix of CoD and CS:GO. Not as "exciting" as other games but it still fun and 100% FREE.. Fantastic game, a bit on the short side depending on your skill level, managed to beat it in 6-7 hours 100%. Haven't had a blast like this in a while though, gameplay feels very satisfying and didn't really run into bugs or glitches.

Made me feel good about myself for a while, thank you for that.. Good game, well worth the price but it is very frustrating. You spend the majority of 10-20 minutes creating your party and fine tuning it the way you want, then you need to go and find the person who issues you your first quest. Then you go and do your quest, but you get stopped by numerous enemies who seem to be able to attack twice as often as you can. They don't do a whole lot of damage but it is still frustrating to be killed by a goblin who attacks twice as fast as you and you can't defend or anything. The movement and combat can be a little glitchy at times. It's not a bad game, it's not a great game. 7/10.. E.Wolf's +5

1. If you like spreadsheets, you will enjoy this game. If you dislike spreadsheets, you will be bored.
2. There is an incredible amount of customization. From the playbook to each player's stats, everything can be edited to make the game however you want it.
3. There is also an incredible amount of detail. Each player has a variety of stats beyond what is offered in games like Madden NFL. Player performance changes their stats and benching players can both upset them and reduce their stats. The teams actually feel like teams instead of lists of individual players.
4. With this being a spreadsheet-focused game, there is a plethora of statistics available to analyze. This is extremely useful for determining what your team needs to succeed.
5. The off-season is incredibly detailed and realistic. I enjoyed the off-season more than the season due to the incredible customization and the hope for success next season.. This game is awful. I tried to make the tractor and cultivator work the field and the tractor ran into the side of the barn. You buy equipment and it doesn't show up anywhere. The barn is just a prop. Apparently the entire town is your farm. The music doesn't work. The tutorial is the wrong font color. Where is my equipment??? Made with Unity personal. It shows it.

This game has too many things wrong to bother with. 1/10

This just doesn't feel finished, after just a few min you get the feeling that it's missing something. Aircraft spawn to the sides and rear of you giving no time to dodge it, the number that do show up is not countable. They could have had a hanger to stop or slow the spawn rate on air craft but they don't. The good part, they have a single shot from them but the speed they fly and the shot speed are the same, you can see them flying with their shots right in front. The ground based tanks the AA guns are better balanced than what you face in the air, when you kill an area it's empty after.

I think they got the weapons swapped, guns would have been better for ground based and a little tracking on missiles for anti-air, having to lead your target at a 90deg turn just to shoot aircraft makes it look bad. The limited ammo for big attacks has you wishing for more as this would have made the run and gun game play fun.

Not recommended at this time needs work.. umm doesn't load past 56 % can't even play.. don't bother. Good story, graphic and sound, simple to control but little challenging to win.

Quite good game :). Viki Spotter: Megapolis is an excellent game for children of the genre "searching for differences." This part is already clear to the metropolis. A great opportunity to learn new words with the child.

+ Bright and attractive graphics.

+ Lovely main character

+ A large number of levels

+ A large number of easy achievements (open as you progress through the game)

+ Infinite and free hint

+ Atmospheric soundtrack

As for me, an excellent development game. You probably will not stay on it, but the child will be interested in this wonderful game. A simple bullet hell with a metagame leveling structure, The Weaponologist is a mediocre rehash of flash games we've all played for free. If you've played games before, you've already played this one. And if you've played 9 minutes of this game, like I have, you've already played the whole game.. Great game, had a lot of fun playing it. There are some archery games for the vive, and I really like the style of this one over the others.

The characters are interesting and varied (mages, goblin throwing big beasts, etc).

I also enjoyed the powerup arrows. Freezing all the bad guys was really fun and saved me a few times.

Definitely a game worth getting.
