About This Game

Void 21 is a procedurally generated, arcade style, fast-paced runner and shooter. You are a pilot training with the highly maneuverable and lethal Void ship. Your objective is to reach the end of the level, either as quickly or as violently as possible (or both?).

["It's a great title, with a lot to offer. It's frankly nigh on impossible to finish everything the game has to offer" - Final Boss Fight](#)

Really a amazing game!

I loved the fast paced style of the game, coupled with the quick thinking and reaction times needed to make it to the end
The graphics are great as well.

I would highly recommend this game. 10/10. This game is fun! The premise is simple but very well executed. The sense of speed is amazing. I love the quotes in the menu and the descriptions of the ship mods. The controls are tight and although the game can get difficult, it is never unfair. It works very well on linux (linux mint), no performance issues. Only issue I noticed was graphical artifacts after crashing as the camera moves around your remains. Some parts of the screen flash black. Minor thing and does not affect gameplay at all.

P.S. From what I've seen online the dev is a cool dude.. Its a nice game to kickback, relax, and repeatedly smash into walls.

. Amazing fast paced future game. VR implementation is incredible. Despite fast left/right movement and acceleration I didn't experience any motion sickness.

Game is fun, but if you are like me and want to see a quick YVN on VR implementation, this can be recommended.. Fast and fun racer. Graphics are simple but they work. Challenging without being frustrating. Played on mouse and keyboard and felt that the controls were nice and responsive. Pretty good replay value, though it's missing that little addictive spark that keeps me coming back to games like this.

All of that said it's the kind of game where you stop playing and don't really feel the need to come back it. It's actually a game that I wouldn't mind having on my mobile phone because of the pickup and play nature but I don't think it really provides enough value for the price.. VR implementation is incredible. Despite fast left/right movement and acceleration I didn't experience any motion sickness.

Game is fun, but if you are like me and want to see a quick YVN on VR implementation, this can be recommended.. Nice difficulty progression and overall this is an ok little reflex game. The feeling of speed is the best part. That said this all felt pretty basic. The levels are all completely flat and the graphics are simple to the point of being lazy. No mouse support is super annoying and it makes keyboard players feel like second class citizens. Clearly this was meant to be played with a gamepad..
Amazing fast paced future game

Really a amazing game!

I loved the fast paced style of the game, coupled with the quick thinking and reaction times needed to make it to the end
The graphics are great as well.

I would highly recommend this game. 10/10. Fun and challenging game, I don't have VR, but this game is fun even without VR. Recommended!. Fast and fun racer. Graphics are simple but they work. Challenging without being frustrating. Played on mouse and keyboard and felt that the controls were nice and responsive. Pretty good replay value, though it's missing that little addictive spark that keeps me coming back to games like this.

All of that said it's the kind of game where you stop playing and don't really feel the need to come back it. It's actually a game that I wouldn't mind having on my mobile phone because of the pickup and play nature but I don't think it really provides enough value for the price.. Gotta go fast *Sonic sounds*

Great game if you like going fast and/or have the "repeat it until I beat it" mind. Can't even imagine how awesome it is in VR.. Fun and challenging game, I don't have VR, but this game is fun even without VR. Recommended!
